LOCAL WHOLESALE TRADE

FAIR AMOUNT OF ACTIVITY, AIDED BY THE PLEASANT WEATHER.

Even the Dry Goods Houses Are Doing a Good Business-Increased Arrivals of Grains.

Trade opened briskly yesterday, weather conditions being favorable to activity. The dry goods houses, which had looked for a dull and unprofitable period this month, are having a very fair trade and are making some money. Wholesale grocers never enjoyed a better trade than in this month, and in fact for months past their business has been large, beyond all precedents. Staple groceries, sugars excepted, have ruled very steady, and though sold on small palls. \$1.40@1.50; double washboards, \$2.50@2.70 margins, the sales have been so large that it has been a profitable year. Druggists also have had an excellent business. They, too, usually look for a dull July, but this month the expectation has not been realized. Flour continues active and prices are well held at the recent advances, but an impression prevails that the wheat crop city kip. 50@80c; French kip. 90c@\$1.20; city calfis turning out so much better than expected that higher prices are not antici-pated. On Commission row a good deal of stuff is offered and inferior stock sells low, oranges and other fruits are selling at about the same price as in weeks past, which, while not unreasonably high, are high for this season of the year. Produce merchants report receipts increasing and prices easier, but the Journal's quotations cover the market. In other lines of trade there is nothing of importance calling for

Indianapolis Grain Market.

Receipts of wheat continue liberal, and for all arrivals that grade well there is ready sale at prices quoted. Track bids yesterday were at the following range, as reported by the secretary of the Board of Wheat weaker; No. 2 red, 74c track;

UNDER PRESSURE

STOCKS GO LOWER UNDER THE PER-SISTENT LIQUIDATION.

High Grade Issues Break Severely on Small Transactions-Money Market Remains Easy.

NEW YORK, July 20 .- Liquidation was still manifest in to-day's stock market. The actual selling pressure was congested in individual stocks. The volume of activ-Paying 5 percent. clear of taxes, at price asked. | ity was not great in the general list and the dropping tendency of the market seemed to be largely in sympathy with the weakness shown by special stocks. Professional bear tactics played a part in the day's declines, as was shown by the occasional ral-But the demand on this account seemed to be soon satisfied and there was no disposition to pursue the buying on any advance. The high grade railroad stocks were less conspicuous in the weakness and showed some early positive resistance to depression, but the weakness became general before the day ended.

High priced inactive stocks continued to suffer severely from the execution of very light selling orders, as for some time past. Delaware, Lackawanna & Western broke 11% to 236 on a single transaction and immediately rallied several points, but sold as low as 235 later. The old Chicago, Rock Island & Pacific stock sold at 147, compared with the preceding sale last January at 200. Various securities embraced in the widely ramified Rock Island system were under severe pressure, including Rock Island common, which sold at a new low record at 25. Suggestions of a project for a new divisional arrangement of the system involving a heavy issue of refunding bonds were published during the day. It was believed also that the holdings of Rock Island, which were acquired as a result of the absorption of the St. Louis & San Francisco, were sought to be dislodged and forced on the market by the attack of the bears. Another center of disturbance was | mercial bills, \$4.84. Amalgamated Copper, which dropped to 44%, a new low record. The selling of this stock was unexplained by any new developments, but its weakness aroused misgivings among shareholders as to the affairs of the corporation and induced additional selling. Colorado Fuel's fall to 50 was ac-companied by rumors of the necessity of per cent.; three months' bills, 3%. selling. Colorado Fuel's fall to 50 was acnew issues to take care of loans which have been made. United States Steel sold at 25 and its weakness was a factor in the general depression of sentiment. Sugar's break to a low record for the year was also not without influence on sentiment. The

market had a fairly good rally in the last hour, but lost nearly all of it again before the closing, which was weak. Money was slightly easier, if anything and the market for sterling exchange hardened, apparently in response. Operators in stocks feel little hope of any demand for securities while active competition for funds in the money market goes among railroad corporations and wealthy individuals. The weekly statistics of railroad traffic show rather a notable decline in the grain movement, but general merchandise continues to move in large bulk and railroad officials profess an ex-

pectation of an unprecedented traffic this There were some points of resistance in the bond market, but other points showed weakness. Total sales, at par value, were \$1,585,000. United States bonds were unchanged on last call. Following are the day's share sales and the recorded price changes:

WHEAT LOSES A FULL CENT ON WEATHER AND LIQUIDATION.

Corn Also Is Lower and Oats Close at a Decline-Hog Products Influenced by the Cereals.

CHICAGO, July 20.-Weakness ruled in all the pits to-day, prices showing further losses. Wheat closed down 1c, corn %@%c | nental, \$8.10; S. A., \$8.75. lower, oats 1@1%c off and provisions at losses of 71/2c to 121/2c.

Free offering with lack of support were responsible for the weakness in wheat, and though buying orders came in from St Louis and temporarily checked the declining tendency, too much long wheat Quotations at St. Louis, Baltimore, came out and prices continued to drop. September opened with a loss of 4@1/2c at 7614@76%c and sold up early to 76%c. Under the heavy liquidation later, in which pit traders and commission houses joined, influenced by good weather and crop reports, it reacted to 75%c, where it closed, with a loss of 1c. There was some bull news from the Northwest, but the scarcity of buying orders rendered it of no effect. Local bulls had wheat for sale and helped the decline. Primary receipts were 644,900 bu, against 1,403,200 bu a year ago. Clearances of wheat and flour were equal to 227,700 bu. Minneapolis and Duluth reported receipts of 223 cars, which, with local receipts of 82 cars, 44 of contract grade, made a total of 305 cars, against 271 last

week and 499 a year ago. The weather and improved crop reports and brought out some influential trading early, and the market never recovered from the effects. There was a fair demand at the opening decline, which in September amounted to 1/201/20 to 1/201/20 at 49@49%c, but beyond a temporary rally in that option it only served in a measure to check the decline. Local bulls offered little support and trade in the aggregate was small. September closed with a loss of %@ 34c at 48%c, after ranging between 48%c and 491-c. Receipts were 196 cars, 10 of con-

Oats followed other grains, under practically the same influences. The good grading of oats coming in was an additional weakening factor. There were but few buying orders and some short selling, resulting in a loss in September of 161%c, the close being at 31%c, with a range for the day between 31%c31%c and 32%c. Receipts 48 4%d.

were 177 cars. Some scattered buying early in provisions gave promise of a better market, but support was lacking and the grain markets influenced all lines. September pork closed 746010c lower at \$14.30, lard down 1214c at \$7.9216, with ribs off 10c at \$8.40. Estimated receipts for to-morrow: Wheat, 155 cars; corn, 375; oats, 400; hogs, 18,000

SAWS AND MILL SUPPLIES

FINEST ON EARTH. Hand, Crosseut, Butcher, Kitchen and Mill Saur SOLD EVERYWHERE

Hogs-Receipts, 2,500; shipments, 1,400. hough about the same as a week ago, and nearly three times as large as a year ago, the receipts of hogs to-day were by no means liberal, but the quality generally was quite satisfactory. With rather favorable reports from the general market salesmen were asking higher prices, and with a good request from local and outside sources a trading basis was soon established. The demand was strongest for the medium good to heavy hogs, and they sold promptly at a gain of nearly 5c in prices compared with last Saturday's average. Light hogs did not fare quite as well as the heavier grades, but generally were reported strong and in some instances to higher. There was a fair request for pigs weigh-ing 120 to 130 lbs, but none were here to test the strength of the market. Sales ranged from \$5.65 to \$5.90 and the syrtams to \$5.90, and the extreme price for heavy was \$5.75. A good clearance was made early, and the market closed steady at opening prices. Mixed and heavy packing.

Good to choice light weights

Common to fair light weights .. 200 80 120 ** Sheep-Receipts light; shipments mone. As usual at the beginning of the week, there was a very small supply of sheep and lambs for the market to-day, and it was impossible for salesmen to make an accurate report of the market based upon actual sales. It was claimed, however, that the few here sold at steady prices compared with those pervailing at the close of last week, and it was generally believed that a larger supply could have been sold on the same terms. Lambs averaging 70 lbs sold at \$5.25, and sheep were reported at \$2.7564.25. Quotations: Sheep-Receipts light;
